'WE ENSURE HIGH QUALITY'

Medical Disposables, Hospital Equipments & Patient Care Products

Hqmeds India is engaged in the export & domestic sales of Medical Disposable Devices, Hospital Equipments and Patient care products.

Since the beginning, HQmeds India has committed itself to provide safe and user friendly Medical Devices to the Healthcare professionals.

HQmeds India is a one stop solution for all your medical requirements at highly competitive prices, with prompt deliveries and best of services.

Some of our focused countries are Turkey, United Arab Emirates, Vietnam, Saudi Arabia, Malaysia, Thailand, Cambodia, Greece, Romania, Spain, some of the south and Latin American countries and entire Africa.

It is our endeavour to supply a consistently high quality products, right the first time and right every time.

Our Product Categories :-

- Infusion & Transfusion
- Urology
- Anesthesia & Respiratory Care
- Gastroenterology
- Surgery & Wound Care
- Orthopaedic Range
- Dressing & Bandages
- Rehabilitation Aids
- Maternity
- Gloves
- Rubber Products
- Diagnostics
- Hospital Holloware
- Miscellaneous Products

INFUSION & TRANSFUSION

MEDICAL CONSUMABLES

IV INFUSION SET

Latex Injection membrane for intermittent medication. Strong, sharp spike with flexible drip chamber with & without air vent for rapid adjustment of fluid level. Available in sterile pouch.

Made of an ultra-thin wall cannula beveled tip along with Flexible silicon tubing. This flexible tubing is long and attached to an infusion source.

Sizes: G-14, 16, 18, 20, 22, 24, 26.

Type	Sizes
I.V. Cannula with injection port and wings	G 14, 16, 17, 18, 20, 22, 24, 26
I.V. Cannula without injection port with wings	G 14, 16, 17, 18, 20, 22, 24, 26
I.V. Cannula, without injection port, with small wings for paediatric use only	G 24, 26
I.V. Cannula without injection port & without wings	G 14, 16, 17, 18, 20, 22, 24, 26

INTRAVENOUS CANNULA

Precisely processed by advanced technology & finest material of market under the supervision of experts. Approximately 20 drop/ml. Available Single or Double Drip chamber.

BLOOD ADMINISTRATION SET

SCALP VEIN SET

The butterfly wings are available in different colors that help in identification of the Sizes and the design of the wings also facilitate in better fixation.

Sizes: 18NG, 19NG, 20NG, 21NG, 22NG, 23NG, 24NG, 25NG.

MEASURED VOLUME BURETTE SET

Suitable for infusion of measured quantities of fluid. Clear, Soft, Cylindrical & Calibrated measured volume chamber with marking for precise fluid administration.

Sizes: 110 ml & 150 ml.

INFUSION & TRANSFUSION

MEDICAL CONSUMABLES

IV FLOW REGULATOR

Designed to incorporate between infusion line and venipuncture device for additional infusion. Inside is completely smooth & available with molded luer lock.

I.V. Fluid Flow Regulator Extension is used to regulate the flow of IV fluid from an infusion set into an IV catheter. Super smooth kink resistance tubing ensures uniform flow rate. Designed to control flow rate from 5ml / hr - 250 ml / hr manually.

THREE WAY STOP COCK

PRESSURE MONITORING LINE

Designed for arterial blood pressure monitoring. Fitted with male & female luer locks for secure connections.

Designed to make administration of fluids convenient and suitable for low pressure applications Available with three way stop cock extension line

EXTENSION LINE

C.V.P. MANOMETER

Suitable for continuous or intermittent monitoring of central venous pressure during infusion, Moulded clamps with latex free rubber strings are provided for easy fixation on the V stand.

IV Connector is a needle free I.V. access device. It prevents I.V. Catheter related blood stream Infection Cases. The device has a low prime volume of 0.1 ml and has a high flow rate. It is sterile ready for use.

IV CONNECTOR

SYRINGES & NEEDLES

- Sizes available: 1ml, 2.5ml, 3ml, 5ml, 10ml, 20ml, 30ml, 50ml, 60ml, 100ml
- Latex or latex-free gasket
- Luer lock or luer slip
- Packing: Individual PE bag / ribbon packing/ blister packing/ bulk packing

CENTRAL VENOUS CATHETER

Central Venous Catheter made of specially formulated and biocompatible Polyurethane material provides strength during insertion and softens at body temperature to conform to the body tissues and reduces the risk and vascular trauma.

Kink resistant Guidewire with soft & flexible J-tip offers better torque which helps in easy insertion & prevents vessel perforation.

Sterile / Disposable / Individually Tray Packed kit

UROLOGY

MEDICAL CONSUMABLES

FOLEY BALLOON CATHETER

Silicon Foley Catheter is a flexible tube that is open passed through the urethra and into the bladder.

Sizes: 6R,8FR,10FR,12FR,14FR,16FR 18FR.

Made from natural latex rubber

Polymer coating on inside surface for greater inner diameter and high flow.

Sizes: 6R,8FR,10FR,12FR,14FR,16FR 18FR.

Type : 2 way & 3 way foley balloon catheter

SILICON FOLEY BALLOON CATHETER

URETHRAL RUBBER CATHETER

Designed for short term urinary drainage in the patients. Sterile & Pyrogen free made of natural latex rubber.

Sizes: 6R,8FR,10FR,12FR,14FR,16FR 18FR.

Proximal End designed for easy connection of urine bag. Made of Pure Latex for soft & gentle feel.

Sizes: Small(20, 22 mm), Medium (30 mm), Large (35 mm), Extra Large (40 mm).

MALE EXTERNAL CATHETER

NELATON CATHETER

Traumatic, soft, rounded, closed tip with two lateral eyes for efficient drainage.

Color coded for Sizes identification.

Sizes: 6R,8FR,10FR,12FR,14FR,16FR 18FR.

Designed for introduction of enema solution in to rectum. Soft nontoxic, non-irritant. Color coded for Sizes identification.

Sizes: 6R,8FR,10FR,12FR,14FR,16FR, 18FR.

RECTAL CATHETER

UROLOGY

MEDICAL CONSUMABLES

URINE BAG

Designed for accurate measurement of hourly urine output during examination of patient. Available in different configurations.
Capacity available: 100ml, 200ml, 1000ml, 2000ml.

Designed for long term Urine Drainage. Manufactured from Soft Nontoxic, Nonirritant Tube. Sterile, Disposable & Individually packed.
Sizes: 10FR,12FR,14FR,16FR 18FR,20FR.

GIBBON'S CATHETER

TUR SET

Y shaped design for endoscopic irrigation during trans urethral resection of prostate gland. ETO sterilized, Non Toxic, Pyrogen free.

Bedpan is used for both urinary & fecal discharge of bed ridden patient. Bedpan comes in attractive designs and are made of high grade plastic.

BED PAD

URINE CULTURE BOTTLE

Designed for collection of urine or culture test. Made of medical grade polypropylene Dimensions marked with proper visibility
Sizes: 30 ml, 50 ml.

Hygienic & odorless urine pot. 2 in 1 can be used for both female & males.
Sizes: Available in 1000ml capacity with graduation mark.

URINE POT

ANAESTHESIA & RESPIRATORY CARE

MEDICAL CONSUMABLES

NASAL OXYGEN CATHETER

Specially designed for convenient oxygen therapy. Manufactured from soft, Non-Toxic, medical grade PVC compound. Compact design & highly adjustable.

Soft, transparent, odourless, kink resistant star lumen tubing made of medical grade PVC to ensure continuous flow of oxygen.
Tube length: 200 cm., Size- Adult/Paed/Infant

OXYGEN MASK

NEBULIZER KIT

Consist of face mask with a specially designed nebulizer chamber for nebulizing patients. Nebulizer chamber capacity 5/6/7 cc.

HIGH CONCENTRATION MASK

Made from Non-Toxic medical grade PVC, 100% Latex free. Comes with 1 L tr Reservoir bag.

VENTURI MASK

Allow accurate administration of a variety of oxygen concentrations. Six color diluters for six concentrations: 24%, 28%, 31%, 35%, 40%, 50%. Adaptor for high humidity.

CATHETER MOUNT

Designed for delivery of oxygen or gases to the patient. Catheter Mount standard swivel mount with double swivel elbow.
Specially designed port at the elbow.

ANAESTHESIA & RESPIRATORY CARE

MEDICAL CONSUMABLES

ENDOTRACHEAL TUBE

Manufactured from thermo-sensitive material readily conforming to body contours at body temperature. Nasoral tip suitable for nasal/ oral intubation.

Endotracheal tube sizes (I.D. of the tube in mm):

Cuffed	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0	7.5	8.0	8.5	9.0	9.5	10.0	
Plain	2.0	2.5	3.0	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0	7.5	8.0	8.5	9.0
	9.5	10.0													

Tracheostomy tube is used to maintain a patent airway through tracheostomy and mechanically ventilated patients.
Made from Non Toxic, Non Irritant, medical grade PVC.

Endotracheal tube sizes (I.D. of the tube in mm):

Cuffed	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0	7.5	8.0	8.5	9.0	9.5	10.0	
Plain	2.0	2.5	3.0	3.5	4.0	4.5	5.0	5.5	6.0	6.5	7.0	7.5	8.0	8.5	9.0
	9.5	10.0													

ENDOTRACHEAL TUBE

INFANT MUCUS EXTRACTOR

Infant Mucus Extractor is used for Aspiration of secretion from oropharynx in newly born babies.

Manufactured from non toxic, medical grade polymer.

Transparent Chamber for visual examination of the content.

Capacity: 20 to 25 ml

Suitable for maintaining an unobstructed oropharyngeal airway
Bite block to prevent biting of tongue and airway occlusion
Rounded atraumatic edges & smooth airway
Color coded for easy identification of sizes
Sizes : 000, 00, 0, 1, 2, 3, 4, 5

GUEDEL AIRWAY

NEBULIZER MACHINE WITH KITS

A **Nebulizer** is a breathing machine used to treat lung conditions such as asthma, cystic fibrosis, and other respiratory illnesses. They administer medication in the form of a mist that's inhaled into the lungs and are often used in situations in which using an inhaler is difficult or inefficient.

Nebulizers are ordinarily used for the treatment of a range of respiratory disorders such as asthma and COPD. Medications are inhaled straight into the lungs for efficient treatment. Nebulizer offers you instant relief by making your breathing easy and efficient.

ANAESTHESIA & RESPIRATORY CARE

MEDICAL CONSUMABLES

BAINS CIRCUIT

Restores and maintains lung capacity in post-operative ambulatory and COPD patients. Air filter for enhanced protection. Sterile/Disposable/Individual printed Box Packing.

Bains circuit is made from corrugated tube of 22 mm diameter with expiratory valve connecting tube & 2 liter reservoir bag.
Sterile/Non Sterile/Individual packed.

RESPIRATORY EXERCISER

NASOPHARYNGEAL AIRWAY

Used on breathing or non-breathing patients. Readily conforms to the nasopharyngeal anatomy.
Sizes: 5 - 9 FG

Used for Anesthesia and Airway support, our offered mask is widely demanded in hospitals, nursing homes and other medical sectors.

LARYGEAL MASK AIRWAY

BIPAP MASK

Highly Efficient Full Face Mask for BIPAP. Our provided range comes in soft silicon material with ergonomic pad shape.

Silicon Resuscitation Bag is available with standard elbow E-type valve, Oxygen Connecting tube and reservoir bag.
Sizes: Adult, Pediatric, Infant.

RESUSCITATION BAG

MEDICAL CONSUMABLES

ANAESTHESIA & RESPIRATORY CARE

Manufactured from soft Non-oxic, Non Irritant medical grade PVC. Color coded connector for easy sizes identification.

Sizes: FG 8, 10, 12, 14, 16, 18, 20.

Optional: Thumb controlled, Finger tip controlled, Atraumatic tip

SUCTION CATHETER

GASTROENTEROLOGY

Manufactured from Non-Toxic, non-irritant PVC for Neonates & Paediatric feeding
Sterile/Disposable/Individual Packed.

Sizes: FG 5, 6, 7, 8, 9, 10

INFANT FEEDING TUBE

Manufactured from Non-Toxic, non-irritant PVC.

Sterile/Disposable/Individual Packed.

Length: 105 cms.

Sizes: FG 8, 10, 12, 14, 16, 18, 20, 22, 24

RYLE'S TUBE

STOMACH TUBE

Designed for nasogastric introduction of nutrition & aspiration of intestinal secretion. Marked at 50cm, 60cm, 70cm from the tip for accurate placement.

Sizes: FG 8, 10, 12, 14, 16, 18, 20

LEVI'S TUBE

Designed for gastro-intestinal feeding and aspiration of intestinal secretion.

Sterile/Disposable/Individual Packed.

Sizes: FG 8, 10, 12, 14, 16, 18, 20

SURGERY & WOUND CARE

MEDICAL CONSUMABLES

YANKAUER SUCTION SET

Transparent Molded Yankauer Suction handle attached with 2.5 mtr long Non-Toxic, medical grade PVC tubing suitable for easy attachment to any type of suction apparatus.

Manufactured from Non-Toxic, Non-irritant medical grade PVC. Intended for the use in post-operational drainages from abdominal areas.

Sizes: FG16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38

ABDOMINAL DRAINAGE KIT

CHEST DRAINAGE CATHETER

Suitable for post-operative drainage after cardio-thoracic and thoracic surgery. Sterile/Disposable/Individual Packed.

Sizes: FG 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36

CLOSE WOUND SUCTION UNIT

For close wound under negative pressure post operatively with optional use one or two catheter simultaneously. Collapsible bottle is available in 400 ml & 800 ml.

CORRUGATED DRAIN SHEET

Extra soft super smooth PVC corrugated sheets for wound drainage. E.T.O. Sterile & Pyrogen Free

MINI CLOSE WOUND SUCTION UNIT

Designed for wound drainage under negative pressure for minor surgery and plastic surgery. Sizes: 6ml, 8ml

ORTHOPAEDIC RANGE

GAUZE SWABS

Gauze Swab (Sterile / Non-Sterile) are packed in tear-open medical grade paper & plastic pouches. 100% cotton swabs with high absorbency level.
Sizes : 2"x2", 3"x3" and 4"x4".

Absorbent Cotton Wool is Fabricated using 100% Cotton. These cotton wools are convenient for cleaning & swabbing various type of wounds.

Sizes: 50, 100, 200, 400, 500 gms.

ABSORBENT COTTON WOOL

GAMJEE ROLL

Gamjee Roll made from superior cotton yarn. It is used for swabbing and cleaning wounds & also applied over the dressing to hold the bandaging point.

Paraffin Gauze Dressing soothes and protects the wound and allows free passage of viscous exudate.

Specs: 10cmx10cm, 10cmx30cm.

PARAFFIN GAUZE DRESSING

DRESSING & BANDAGES

MEDICAL CONSUMABLES

CANNULA FIXATOR

Cannula Fixer Elastic Bandage dressing designed to secure the catheter in challenging I.V. application. Sterile/Disposable/Individual

Plaster of Paris Bandage is widely used in orthopaedic segment. These bandages are offered in specific length of 2.7 meter. The bandage is extra durable, extra creamy & minimum powder loss.

PLASTER OF PARIS BANDAGE

COTTON CREPE BANDAGE

Coton Crepe Bandages have several features such as woven fast edges, better elasticity, controlled uniform and smooth pressure. These are available in various width & that stretched to the length of 4 Mtr.

Elastic Adhesive Bandage is a lightweight strapping bandage that can be use for ankle taping knee taping, hand taping & wrist taping. Elastic adhesive bandage is strong & reliable stickiness.

ELASTIC ADHESIVE BANDAGE

GAUZE BANDAGE

Gauze Bandage, a simple woven strip of material, or a woven strip of material to prevent adhering to wounds.

Adhesive Tapes are extensively used for diverse commercial and household uses. Available in various Sizes.

ADHESIVE TAPE

REHABILITATION AIDS

WRIST & FOREARM SPLINT

Strong Elastic provides support & compression. Keeps the fingers & thumb in functional position. Touch & Close fastening.

Easily shaped contoured palmer stay for immobilisation. Overall length 8" (20.3cm) length. Left or right sided.

TENNIS ELBOW

Padded band places pressure directly on to the inflamed tendon. Reversible buckle mechanism. Durable, Comfortable material provides lasting wear.

20" long anatomical shaped brace for stabilize knee. Elastic trap help easy to wear and secured fitting.
Available Sizes: S, M, L, XL, XXL.

KNEE CAP

Double layer long type Knee Cap is increases therapeutic warmth and quicker healing.

Available Sizes: S, M, L, XL, XXL.

Ankle Binders of 8 Pattern design for fine stability. High Strength elastic provide good compression.

MEDICAL CONSUMABLES

WRIST STRAP

LONG KNEE BRACE

ANKLE BINDER

REHABILITATION AIDS

MEDICAL CONSUMABLES

CHEST BELT

Available in 6" & 9" width elastic. Ethafoam padded for better comfort. Design Efficient to hold rib cage.
Available Sizes: S, M, L, XL, XXL, Universal.

ABDOMINAL BELT

Curved flap give proper support to hanging abdomen. Available in 6" & 9" width elastic.
Available Sizes: S, M, L, XL, XXL.

Made with high GSM stockinet. Loop Contact closure for easier use.
Available Sizes: S, M, L, XL.

ARM SLING

Designed to support the arm Easy to apply with touch-and-close fastening.
Ethafoam shoulder pad.
Available Sizes: S, M, L, XL, XXL.

Designed to immobilize the arm and shoulder.
Body strap helps control rotation.
Available Sizes: S, M, L, XL, XXL, Universal.

RIB BELT

CERVICAL COLLAR

SHOULDER IMMOBILIZER

MATERNITY

MEDICAL CONSUMABLES

CORD CLAMP

Features:

- Equipped with bearing for smooth motion
- Superior surface finish
- Easy to adjust height

Other Details:

- Umbilical Cord Clamp is used for clamping the umbilical cord of newly born baby.
 - Manufactured from non toxic, medical grade polymer.
 - Permanent locking system protect against the reopening of the clamp.
 - Finger grip is provided to facilitate easy holding and locking of the clamp.
- Catheter clamp is also available for clamping the catheters.

AMNIOTIC SAC PERFORATOR

The Amniotic Membrane Perforator is a sterile, single-use obstetric instrument used to rupture the amniotic membrane with minimal risk of trauma to the fetus or mother.

Features

- Anatomically shaped to allow user to snag membrane, preventing injury to the fetus
- Curved, protected hook, to safely rupture the amniotic membrane.
- Contoured edges fit comfortably in the operator's hand
- Straight handle for optimal control and comfort
- Sterile, Single Use

BREAST PUMP

- Smooth Functioning and easy to use .It can be operated single handedly with ease.
- Plastic bottle that is very hygienic and safe for the new born

GLOVES

MEDICAL CONSUMABLES

SURGICAL GLOVES

- Surgical gloves are used for protective covering for the hands from contamination.
- Made from Natural Rubber.
- Micro rough finish for better grip.
- Bent fingers for greater comfort.
- Lightly powdered.
- Sterile, individually packed in peelable pouch pack.
- Sizes- 6.0, 6.5, 7.0, 7.5, 8, 8.5

EXAMINATION GLOVES

- Protection in examinations and laboratory procedures.
- For single use
- SIZES:
XS | S | M | L | XL
- COLOURS:
Blue, black, white, light purple

GYNECOLOGICAL GLOVES

Special features of the sterile elbow length Gynecological Gloves includes:

- Elbow length gloves help doctors avoid direct contact with blood and mucous membranes.
- These gloves also protect doctors from significant blood and amniotic fluid contamination.
- Protect sensitive tissues against contact with potentially abrasive materials.
- High flexibility and comfort thus minimizing user fatigue

Sizes Available: 6.5, 7, 7.5 & 8

Length: 16 inches, 18 inches

RUBBER PRODUCTS

MEDICAL CONSUMABLES

RUBBER HOT WATER BOTTLE

Rubber Hot Water Bottle is a synthetic rubber made medical product widely recommended for the purpose of providing warmth to muscles.

Other Details:

- Hot water bottle made from durable, natural rubber latex.
- Premium quality of material is used.
- Gentle head to soothe upset stomachs and aching joints.
- Natural & Safe – keep warm

RUBBER ICE BAG

Rubber Ice Bag is recommended by doctors and physio therapists, reduces body temperature during high fever.

Features And Benefits:

- Very suitable for cold therapy
- Skin-friendly rubber material, water-proof, light-weight
- Provided with a leakage proof plastic cap
- Prevents swelling, inflammation, blood clot
- Recommended for patients doing physiotherapy exercises and for rehabilitation of injuries

AIR RING

- Size: 40 and 45 CM
- Moulded. Fitted with air flow valve.
With one seam.
Extremely robust and durable.

DIAGNOSTIC

MEDICAL CONSUMABLES

BP MONITOR MACHINE

Blood Pressure Monitor is a wonderful medical device that makes keeping track of your blood pressure levels a convenient task. Blood Pressure monitors use an inflatable arm cuff that is connected by a tube to a gauge and a stethoscope to record blood pressure readings BP Monitor measures the blood pressure and pulse rate simply and quickly.

Blood pressure devices help to monitor hypertension the main risk factor for stroke. The devices are highly accurate in monitoring hypertension and also detect irregular heartbeat.

PULSE OXIMETER

A **Pulse Oximeter** is a medical device that indirectly monitors the oxygen saturation of a patient's blood and changes in blood volume in the skin, producing a photoplethysmogram.

Pulse Oximetry is a test used to measure the oxygen level (oxygen saturation) of the blood. It is an easy, painless measure of how well oxygen is being sent to parts of your body furthest from your heart, such as the arms and legs. It provides continuous, non-invasive monitoring of oxygen saturation of hemoglobin in arterial blood.

STETHESCOPE

The **Stethoscope** is an acoustic medical device for auscultation or listening to the internal sounds of an animal or human body. It typically has a small disc-shaped resonator that is placed against the chest, and two tubes connected to earpieces. It is often used to listen to lung and heart sounds. It is also used to listen to intestine and blood flow in arteries and veins.

Leveraging on the skills of our professionals, we are involved in offering best quality of Stethoscope. The offered Stethoscopes are extensively used in various suitable application areas. Further, the offered Stethoscope is available in the market at most reasonable rates. These Stethoscopes are appreciated for their quality assurance.

DIAGNOSTIC

MEDICAL CONSUMABLES

GLUCOMETER

A **Glucometer**, also known as a glucose meter or blood glucose monitoring device, is a home measurement system you can use to test the amount of glucose (sugar) in your blood. This is a quantitative test, which means that you will find out the amount of glucose present in your blood sample.

You should take this test if you have diabetes and you need to monitor your blood sugar (glucose) levels. Determine your daily adjustments in treatment. Know if you have dangerously high or low levels of glucose. Understand how your diet and exercise change

DIGITAL THERMOMETER

Digital Thermometers are temperature-sensing instruments that are easily portable, have permanent probes, and a convenient digital display. The way a digital thermometer works depends upon its type of sensor.

Digital Thermometer is a medical device used worldwide in Hospitals, Health Centers, Clinics, Nursing Homes and Homes for measuring the body temperature in case of fever. Digital thermometers are powered by batteries and do not require mains charging.
